Minister of the Interior.

See Evening Bulletin.

DANIEL LOGAN, Editor.

TUESDAY, OCT. 12, 1897.

The report of the British royal commission on the West India sugar industry has been issued. It is on the lines of a forecast some time ago republished in this paper from a trade journal. The commissioners recommend that a grant of money from the imperial treasury should be made to encourage this trade and in addition a loan of £120,000 for Barbadoes for the establishment of a central factory.

In discussing the rumor of a compromise on \$100,000 to be paid by Hawaii to Japan, the Tacoma Ledger says: "Just why the Hawaiian government should pay Japan one hundred thousand dollars or one dollar for the simple matter of enforcing its own immigration laws does not appear, and it is not probable that President Dole will submit to this or other unjust demands from Japan."

Emperor William had a lot of cyclists arrested at Rominten for scorching before, behind, and by his carriage, scaring the horses and acting as though they owned the whole road and part of the drain. Oh, for an hour of imperial rule on the Waikiki road!

AN AMBITIOUS CITY.

Tacoma Will Try for the Terminus of the Tahiti Line.

Tacoma, the second largest city of Washington State, glories in having aggregated a value of nearly eight million dollars in foreign and coastwise exports for the year ending June 30, 1897. The Tacoma Ledger says the business men of its city are figuring on getting the steamer line to Tahiti, for which it is understood the French Government stands ready to pay an annual subsidy of \$35,000. Honolulu is mentioned as calling port of the line. A Tacoma man is projecting an evaporating factory for treating vegetables, which, with the Tahiti line secured, would handle the coconuts coming from that group, turning out the dehydrated article for commerce. Tacoma's estimated population, according to the New York World Almanac, the first of this year was 50,000. Seattle's was 60,000.

Captain White Resigns.

Captain E. O. White has sent in his resignation as commander of Company B of the National Guard to Major Jones, as of October 1. He has also requested that the election of his successor may be fixed on the same date as that to fill a vacancy for lieutenant in the same company. Captain White said to a BULLETIN reporter this morning that he found the demands of business in the future would require his whole time and attention and that he was compelled to drop all outside matters. October was the annual stock-taking time and the commencement of the new business year with his firm, and it had been decided on the first of the month that he should sever his connection with the military as soon after that date as possible, in spite of the strenuous efforts of his superior officers to induce him to retain his command until January 1.

AKIYAMA'S ATTEMPT.

Cause Was a Difference With His Chief About Hawaii.

Councillor Akiyama evidently lives, as Japan papers characterize his act as an "attempt" at suicide.

It is stated by the Nichi Nichi that the reason which impelled Mr. Akiyama to attempt suicide was that he held views different from those of Count Okuma regarding the proper time to make a claim for compensation to the Hawaiian Government. On the day of the occurrence, the young diplomat is said to have had a serious discussion with the Count on the subject, the latter insisting that the proper time to make the demand would be after Hawaiian annexation takes place. The argument was conducted at a white heat for some time until Vice Minister Komura separated the parties in order that the feeling should cool down, and persuaded Mr. Akiyama to return to his house. This is declared to have actually taken place before Mr. Akiyama attempted suicide, and the statement is believed to be well founded.

A "STAR" STORY DENIED.

Nippon Yusen Kaisha Steamship Riojun Maru Will Soon Arrive.

William G. Irwin & Co. deny positively that any tramp steamer with 900 contract laborers is on the way from Japan consigned to them.

They have received advices of the projected departure of the Nippon Yusen Kaisha Company's steamer Riojun-Marun from Yokohama with about 500 contract laborers for the Kumamoto and Morioka Immigration Companies and expect her in this port about the end of this month.

This vessel is on the regular line between Yokohama and Seattle of which Wm. G. Irwin & Co. are the agents, and they have nothing whatever to do with the shipping of immigrants nor are they consignees thereof.

During the height of the tea season the regular trips of the Seattle-Yokohama line were suspended about three months but from now on they will be continued at the usual intervals.

E. Constant, Ensigns G. W. Hayward, W. S. Whitted and M. J. McCormack, Passed Assistant Engineer W. P. Winchell, Assistant Engineer H. D. Price, Assistant Engineer B. P. Como, Lieutenant Commander Blockinger and Lieutenant Branner.

W. G. Irwin's Trip.

William G. Irwin was down at the wharf in San Francisco to see the Australia off. With his wife he was to leave for New York the following day via Portland and the Canadian Pacific. He will alternate between New York and Philadelphia until after the Christmas holidays, returning to San Francisco via the Denver and Rio Grande the early part of January. He will be back in Honolulu by the end of that month.

In view of the increased interest taken in cycling preliminary to the opening of the Cyclomere track we have made large additions to our stock of wheels.

TRIBUNE WHEELS.

These we have always made our specialty and we have no reason to regret doing so. They are first-class machines, up to date in every respect, reliable and durable. Call in and take a look at the new Royal Blue Tribune Racer, geared to 84, there is no better wheel made.

We have also added to our lines of the Columbus, Zimmy and B. and H. Special wheels, all of which though cheaper than the Tribune wheels are fine roadsters and good value for the money.

STODDER PUNCTURELESS TIRES are still a novelty in this market, although we imported a few some time since. These have given such good satisfaction that we have laid in a big supply. They are guaranteed for one year.

We have a fine lot of wheelmen's racing suits, which we have just opened out.

Also a few pairs of bicycle shoes to close out a consignment.
